Published scientific papers of clinical studies using EZR

Introduction of EZR
1. Kanda Y. Investigation of the freely-available easy-to-use software “EZR” (Easy R) for medical statistics. Bone Marrow Transplantation (in press)

Studies from Saitama Medical Center, Jichi Medical University

17. Machishima T, et al. The safety and efficacy of acute graft-versus-host disease prophylaxis with a higher target blood concentration of cyclosporine around 500 ng/mL. Clinical Transplantation (in press)

22. Ashizawa M, et al. A combination of fludarabine, half-dose cyclophosphamide, and
anti-thymocyte globulin is an effective conditioning regimen before allogeneic stem cell transplantation for aplastic anemia. International Journal of Hematology (in press)

It is difficult to count studies from other groups, but the article that introduced the investigation of EZR (Kanda Y et al. Bone Marrow Transplantation 2013;48:452-458) is cited in 60 articles on Aug 19, 2014.
